Education

Workintech, Full Stack Development

Program (6 months - 960 hours - 78 projects)
- 2025

Technical University of Sofia, Bachelors of

Computer Science and Engineering
2020-2025 | GPA - 3.6

Languages

English, Advanced

Turkish, Native

Certificates

Front End Development, Workintech,
2025

Full Stack Development, Workintech,
2025

Ahmet Kaan Aslan

Full Stack Developer | Software Engineer

I am a highly efficient full-stack developer with a mindset that aims to acquire new skills and continuously develop myself with new challenges. After graduating from Bachelors of Computer Science and Engineering, I have decided to take my skill into the next level and become a full-stack developer by completing an intense 6-month Workintech full-stack developer program.

SKILLS

Front End: Javascript, React.js, Hooks, Context API, Redux, Axios, Yup, Jest, Cypress, HTML, CSS, Tailwind Css,

Back End: Java, OOP, Data Structures, Design Patterns, Maven, Spring Core, Spring Boot, Spring Data JPA, Spring Security, SQL, PostgreSQL, JUnit, Mockito, Git, .Net

Additional: Algorithms, Debugging, Deployment, Problem Solving, Figma, Teamwork

SOFTWARE PROJECTS

E-Commerce Website, Front End Developer - React

[GitHub](#) | [Website](#)

Built a complete e-commerce platform frontend from scratch using modern React tooling.

- Implemented authentication system with custom Context API logic.
- Created modular, reusable components and clean file architecture.
- Features include login/logout, user session handling, product listings, and cart-style friend management logic (adapted to an e-commerce logic base).

Pizza Ordering App, Front End Dev. - React

[GitHub](#)

A responsive web application built using React as part of a frontend challenge project

- Users can customize pizza orders with size, crust, and toppings.
- Built a dynamic form with validation using Formik and Yup.
- Designed a responsive UI with modular components.

Virtual Tour Guide Application, Full Stack Developer - React Native

[GitHub](#)

- Designed and implemented a native mobile application for touristic navigation and information.
- Utilized React Native and Google Maps API to create an intuitive and user-friendly experience.
- Led the project from concept to deployment, including coding, debugging, and API integration.

Portfolio Website - React-based Developer Portfolio

[GitHub](#) | [Website](#)

- Built using React with clean component structure and routing.
- Designed responsive layout with smooth navigation.
- Deployed live to Vercel.

EXPERIENCE

Delsa, *Istanbul* - Mobile Developer/Intern

Jan 2025 - Mar 2025

- Developed a smart home control mobile application from scratch using React Native.
- Designed and implemented the UI/UX independently.
- Debugged and optimized the app for different devices to ensure a smooth user experience.
- Faced and resolved device compatibility challenges, requiring adaptive UI adjustments.
- Worked independently as the sole mobile developer while receiving occasional mentorship.
